

An Historical Fact

Even before the days of our forefathers, extracts from the same kind of roots, herbs and barks, now used in compounding the ingredients for S. S. S., were well known and extensively used among the Indians.

Science and modern methods have only changed the Indians way of handling the materials, the essential features are still in evidence in S. S. S.—Nature's Greatest Blood Purifier—and a natural sequence of the Indians favorite medicine.

BRITAIN BLACKLISTS CERTAIN U. S. FIRMS

London, July 18.—The British government tomorrow will publish a list of from seventy to eighty business firms and individuals domiciled in the United States with which residents of the United Kingdom will be forbidden to trade. This will be the first time that any American firm has been placed on the statutory list, which is better known as the trading with the enemy act-black list. All other countries have been represented on the list for some time.

Lanning Worthington Evans, controller of the foreign trade department of the foreign office, today gave the Associated Press the following explanation of the extension of the trading with the enemy act.

"It has been the policy of the British government in the past to follow the theory that in forbidding its subjects to trade with an enemy,

enemies domiciled in friendly countries did not come under the act. France and other countries hold the doctrine that their nationals can not trade with an enemy, outside belligerent territory to trade with his country. Therefore a considerable body of opinion in this country urged the government to abandon its traditional doctrine, and the foreign office, while not going to this extreme, decided simply to prohibit persons domiciled in the United Kingdom from trading with a limited number of individuals, firms or companies of enemy nationality or association under the same penalties as though they were trading with an enemy."

The statement continued: "It will be clear that this policy, embodied in the recent act, is purely a piece of domestic legislation, which interferes with trade, even the cases of specified concerns, by prohibiting persons domiciled in the United Kingdom from dealing with these concerns. It is a consequence simply and solely of the exercise of the right of the state to limit or control in the interests of the state the trade relations of its own subjects."

Every Cold Should Be Considered Serious

No say the best medical authorities. Unless promptly checked, often they lead to chronic bronchial and pulmonary troubles which may prove fatal.

If your cough or cold has not responded to treatment—and remember, medicine should not be solely relied on—timely use of Eckman's Alternative may give you relief.

For more than twenty years it has been benefiting sufferers from these disorders. It is especially indicated where the system demands lime, for it contains calcium chloride as combined as to be easily assimilated by the average person.

Safe to try—because it contains no harmful or habit-forming drugs of any sort whatsoever.

Germany's Financial Position. Apart from her holding of foreign negotiable instruments, Germany had large commercial investments in Austria, Turkey and Italy. Those in the last named country must be considered dormant until the close of the war, and with regard to those in the other two, it looks as if they would eventually be hardly worth the documents in which they are registered. The financial position of Austria-Hungary.

Catarrhal Deafness Cannot Be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Cure acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circulars free. All druggists, 75c.

Early is even worse—much worse—than that of Germany and Turkey, having exhausted her own resources. Has to depend on Germany for the means wherewith to carry on her cat-paw work. Both the dual kingdom and the Ottoman empire are hopelessly bankrupt, and the 100,000,000 pounds lent to the latter, nominally by a syndicate of German banks, does not appear to be a very promising asset. One result of the Balkan wars was to reduce greatly Turkey's European territory, together with the revenues derivable therefrom; and no settlement has yet been arrived at for distributing the liability for interest on the foreign debt. Everything, in fact, is in confusion, and the only thing that stands out clearly is that after the war Turkey will be without resources upon which to establish a commercial recovery. Germany will be standing on Turkey's doorstep demanding payment in cash or concessions, and the western powers, after the ingratitude with which Turkey has repaid their repeated help, are not likely to lend their aid for the sake of bolstering up any longer an effete and rotten barbarism.

Germany, in any case, has come appreciably nearer to the end of her realistic assets outside her own empire. She has, in addition, lost all her colonies but East Africa, just when one or two of them were becoming profitable and remitting trade balances to Europe. She is thrown back on her internal wealth for the prolongation of the war. Paper, as has already been said, can be made to fulfill all the duties of a cash currency, but it can not create a wealth that does not exist, or multiply that which does. The national income of Germany, before the war, has been estimated at about 42,000,000,000 marks by Dr. Heffterich, and at 30,000,000,000 marks by M. Rissler. Suppose we take it at the mean figure of 35,000,000,000 marks—how has this been affected by the war? Production, it is admitted, is at least a third less, hundreds of factories are shut up, the export trade is virtually dead, interest on foreign securities is greatly diminished, all kinds of property are depreciating, home securities are depressed, and in many cases pay no dividends, and the much vaunted commercial banks have most of their capital locked up in home and foreign ventures, many of which are, at any rate, temporarily at a standstill. When the time arrives for another big German war loan the wizards of finance will in these conditions be at their wits' ends to know what incantations to use, what magic spells to weave, in order to squeeze real money out of the German people. The game of bluff can not go on forever.—H. J. Jennings in North American Review.

TULSA SHERIFF WANTS AID

Asks Governor for Authority to Organize Citizen posse.

Tulsa, Okla., July 18.—Sheriff Woolley of Tulsa county today appealed to Governor Williams for permission to organize a citizen company of 100 men to cope with a threatened race war at Sand Springs, which culminated in a pitched battle Saturday night when American employers of a large smelter stormed a hotel in which a number of Spanish laborers were residing, and after an exchange of shots which resulted in the wounding of one Spaniard, drove twenty-three of the foreigners out of town.

Today no Spaniard showed up for work at the smelter. The men driven from Sand Springs held a public meeting this afternoon and it is believed they will attempt to return to work.

"UNRECONSTRUCTED REBEL" DESTITUTE IN MEXICO

San Antonio, Tex., July 18.—Consul Bonney, whose post was at San Luis Potosi, Mex., but who is one of the half dozen consular officers held here awaiting orders from the department of the state department for decision of a problem of the most practicable means of getting out of Mexico an American who admits he has no legal status as a citizen of any country.

John Raymond is the man. He is 79 years old, almost destitute, and described as a "worthy individual." He was offered enough money by the consul to pay his expenses to the border, but he explained he could not take the money because he is an "unreconstructed rebel."

Raymond was a Confederate soldier in a Baltimore artillery regiment. At the conclusion of the Civil war he refused to take the oath of allegiance to the United States and moved to Mexico.

CASTRO AND HIS WIFE IS ADMITTED TO UNITED STATES.

Washington, July 18.—Freedom to enter the United States, once denied was granted Tuesday night to Cipriano Castro, former president of Venezuela, and his wife by order of Secretary Wilson of the labor department, who overruled the special board of immigration officials at New York denying them admission. Under the secretary's ruling the Castros are free to go to Porto Rico as they had planned or to remain indefinitely in the United States.

A telegram ordering immediate re-

lease of General and Mrs. Castro, who have been held on Ellis Island since their arrival Saturday from Trinidad, was dispatched Tuesday night.

In explaining his ruling Secretary Wilson pointed out that when Castro attempted to enter the United States in 1913 from France he refused to answer questions regarding his alleged complicity in the murder of General Parades, a political opponent in Venezuela, and was excluded on the ground that he was implicated in a crime involving moral turpitude. At the hearing last Sunday at Ellis Island, however, he answered all questions asked, denying guilt in connection with General Parades' death.

"Not having admitted or been convicted of a crime involving moral turpitude and in fact, denying guilt, under the law there was nothing for us to do but admit him," said Secretary Wilson.

It is admitted that Immigration Commissioner Carmichael, who was in Philadelphia, Tuesday, recommended to Secretary Wilson that the Castros be admitted.

GUTHRIE HAS CELEBRATION.

Free Interurban Ride, Free Dinner and Entertainment for Visitors.

Guthrie, Okla., July 18.—Guthrie celebrated the completion of the Guthrie-Edmond interurban line today with an unusual entertainment feature. Cars were run from Edmond to Guthrie on hourly train schedule, three to five cars in a train, and every person applying was given a free round-trip ticket, which also gave him his dinner at Guthrie if he came in the morning, free admission to all the theatres, free swims at the country clubs and municipal mineral bath-house pool and a free auto ride to all the parks of the city. Over 3,300 people availed themselves of the invitation during the day and over 1,200 business men of the city. Tonight there were open-air con-

Mumps Immunity Possible.

That it may be possible to make a serum that shall confer immunity to mumps seems likely as a result of experiments on cats at the Rockefeller Institute by Doctor Wollstein. She inoculated them with the saliva of persons having mumps and found that they contracted the disease. She attenuated the infectious material with the serum of cats that had recovered and found a distinctly slighter reaction. And reinoculation of animals that had recovered produced but little effect.

CLEAR SKIN COMES FROM WITHIN

It is foolish to think you can gain a good clear complexion by the use of face powder. Get at the root of the trouble and thoroughly cleanse the system with a treatment of Dr. King's New Life Pills. Gentle and mild in action, do not gripe, yet they relieve the liver by their action on the bowels. Good for young, adults and aged. Go after a clear complexion today. 25c at your druggist.

Feed the Sparrows.

A naturalist announces that those tender-hearted persons who have made a custom to supply the wild birds with food in the winter months are really killing them with kindness. "Birds supplied with fat from the food they eat in the summer live through stormy winters without much food, he says, and often when overfed die of diseased liver. Here is suggested a way to get rid of the English sparrows that would meet with their hearty appreciation and co-operation.

Remittances Wanted.

For hours the sympathetic mother had listened to her son's tirade against the college that had expelled him in disgrace and against his father for abetting them in it. "But, dear," she said at last, "you really cannot blame your father for being angry. You must see that you have made a very bad return for all his unremitting kindness." "Ah, that's just it," retorted the irate student. "If it hadn't been so confoundingly 'unremitting' I could have pulled through."

Biliousness and Stomach Trouble. "Two years ago I suffered from frequent attacks of stomach trouble and biliousness," writes Miss Emma Verbyke, Lima, Ohio. "I could eat very little food that agreed with me and I became so dizzy and sick at my stomach at times that I had to take hold of something to keep from falling. Seeing Chamberlain's Tablets advertised I decided to try them. I improved rapidly." Obtainable everywhere.
